NEWS RELEASE:

ITT awarded \$43 million U.S. Army follow-on order for Enhanced Night Vision Goggles

ROANOKE, Va., Aug. 12, 2009 - ITT Corporation (NYSE:ITT) has been awarded \$43 million in follow-on orders from the U.S. Army's Research, Development and Engineering Command Acquisition Center for the Enhanced Night Vision Goggle (ENVG), and associated spare parts.

"Our unmatched capability, technology and customer support are at the heart of these most recent awards," said Mike Hayman, president of ITT's Night Vision business. "By continuing to deliver the industry's most advanced night vision goggle, we are providing our warfighters with unrivaled capabilities required for current and future battlefield operations."

ENVG optically combines an image intensification image, and proven thermal infrared technology, allowing for improved mobility and situational awareness—through clear target detection and improved target recognition. The ENVG combines the strengths of both technologies into one helmet-mounted unit, allowing warfighters to complete their missions more effectively, even when confronted by low-light or obscured conditions.

ITT's Night Vision business, based in Roanoke, Va., is the world's leading developer, producer and supplier of head- and helmet-mounted night vision solutions and image intensifiers for U.S. and allied military forces as well as the homeland security market. ITT has served the U.S. military with premier research, development, production and logistics for analog and digital fusion solutions for 50 years. ITT delivered its one millionth Gen 3 image intensification tube in 2007. To learn more, visit www.nightvision.com.

About ITT Corporation

ITT Corporation is a high-technology engineering and manufacturing company operating on all seven continents in three vital markets: water and fluids management, global defense and security, and motion and flow control. With a heritage of innovation, ITT partners with its customers to deliver extraordinary solutions that create more livable environments, provide protection and safety and connect our world. Headquartered in White Plains, N.Y., the company generated 2008 sales of 11.7 billion. www.itt.com
